
Will start at 12:10 PM

WHAT MATTERS IN A RESUME

"Spike"

Spike ⇒
Something that
shines out

→ SPIKE

Achievements

1.) External contests

↳ open for public

↳ Leetcode /

Codeforces

↳ top 10%

↳ among top 10% with
a rank of x/y in

2.) External Hackathons

↳ top 3 positions

3.) Recognition at Work

→ awards

→ fast promo | double promo

{ "got promoted x times in y years"
for stellar perf }

WORK QUALITY

→ Great company

→ Great college

→ Proof of work

(doing something outside job)

↳ product w/ traction

↳ used day

day by real user

Open Source

↳ Open Source contribution

↳ editing README

↳ putting small proj

on GitHub

→ Long Chain

↳ adding feature to an existing OS Project

③ Hackathons

~~For GitHub~~

Takeaways :

- 1.) Leetcode contests
- 2.) Hackathons
 - ↳ HackerEarth
 - ↳ Devfolio
 - ↳ DewPost
- 3.) Contribute to an existing OS Project

Handling Edge Cases

1.) Notice Period

>60 days \Rightarrow companies don't like.

Non-Ballistic

① "Buy -Out" Clause

→ NP negotiable

② works only if good rel^{*} with
manager

- start hiring replacement
- start KT

Ballistic

{ Once your resume has started
getting submitted in PBC)

→ apply to other PBC based companies

↳ get an offer from them

↳ resign from your job,

→ 90 days

↳ apply to other PBC

↳ get offer

↳ tell other PBC based

company you are joining.

Career Gaps

↳ Female

↳ Many companies have
Back To Work programme.

↳ Do apply for those.

↳ Generally

→ Education

↳ Preferably
1-5 years

→ Side Project

↳ Started

→ Founder @

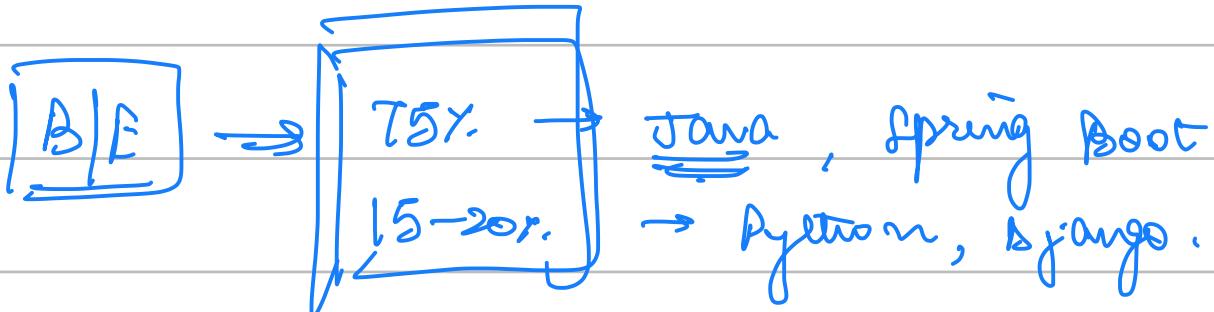

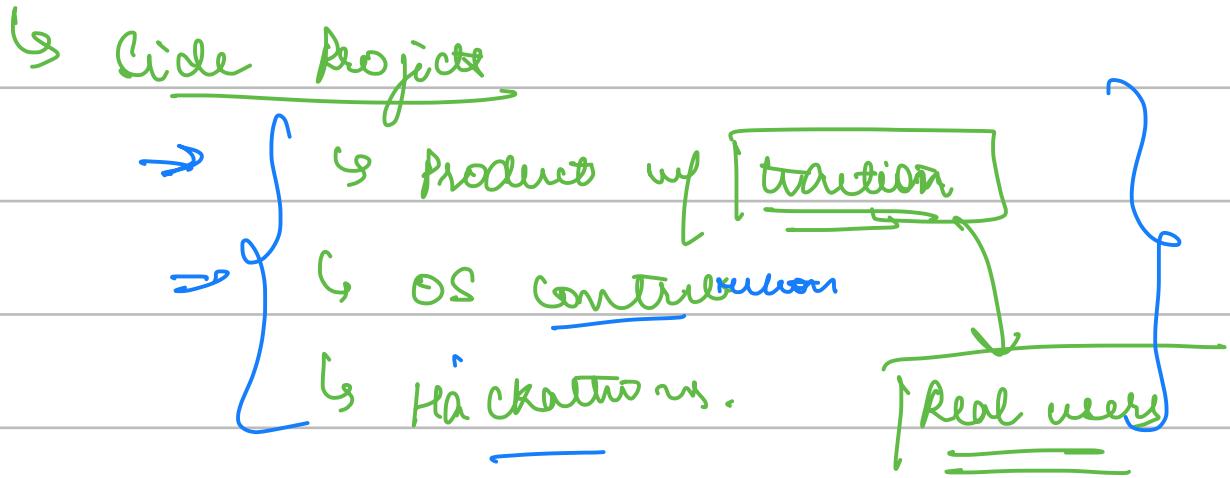

↳ Freelancer

↳ "Open Source Contributor"

Tech Stack

F/S or F/E ⇒ JS ⇒

Attack one of them

Java, Python, JS

Actionables

- Taking part in contests
- Taking part in Hackathons
- Contribute to an OS Project
 - ↳ Java

↳ Python

↳ JS

→ check with past employer on "Buy-Out"

Clause -

→ Update resume in "Resume Builder"

↳ Career gap
